

SOUND FOOTINGS LLC

Concrete Footing Form

- **SQUARE FOOT™** is a square plastic footing form to be used with CONSTRUCTION-TUBE building forms to build concrete footings.
- Provides footings for house additions, pole barns, decks, gazebos, fences, basketball poles, flag poles, etc..
- Provides significant cost savings of labor, time, and material verses conventional wood framing methods.
- Resists settling, lifting, tipping, and uplift in areas subject to freeze / thaw.
- **SQUARE FOOT™** meets all national building code requirements.
